```

Encriptación de las contraseñas

Nombre de usuario del switch

permitir el password encriptado al decir "secret", en este caso el password es cisco

ssh version 2

agregar un nombre de dominio

Nombre de usuario y contraseña para el ssh

Descripción de la interface

Interface truncal, es uno de los comandos que nos permite usar vlans

specificar la vlan de la interface

este comando se usa en conexiones a dispositivos terminales, y son de una vlan

```
    switchport mode access
!
interface FastEthernet0/9
    description interfaces vlan 200
    switchport access vlan 200
    switchport mode access
!
interface FastEthernet0/10
    description interfaces vlan 200
    switchport access vlan 200
    switchport mode access
!
interface FastEthernet0/11
    description interfaces vlan 80
    switchport access vlan 80
    switchport mode access
!
interface FastEthernet0/12
    description interfaces vlan 80
    switchport access vlan 80
    switchport mode access
!
